

**4.4.2 – Procedures and policies for maintaining and utilizing physical, academic and support facilities - laboratory, library, sports complex, computers, classrooms etc. (maximum 500 words) (information to be available in institutional Website, provide link)**

**ACE came into existence in 2005 to provide quality education for overall development of the students to support college vision, mission and objectives. ACE has proper Infrastructural facilities such as class rooms, Laboratories, library, auditorium, sports room and other facilities. Every department has been provided with sufficient class rooms for conducting theory classes. Staff rooms, laboratories, separate wash room for girls and boys, girl's common room, canteen for students and staff members. Principal cabin, Directors room, offices are some of the facilities established. Every floor has some classrooms which are equipped with full facilities required for teaching learning. All the classes are Wi-Fi enabled. Parking facilities are available both for staff and students. Indoor requirements of sports are taken care of by the sports committee. Sports equipment is provided to students and staff members in their free time. Library is kept open during college hours both for students and staff. Computer networking, server maintenance, installation of software, minor Hardware problems are resolved by college technical support. Separate computer maintenance technical staff is appointed to take care of computer lab requirements. Attendants and multi-tasking staff have been appointed by the college to take care of the maintenance of the building. All the departments take care of maintenance of their laboratory equipment.**
